PHOTO GALLERY

One of our recent visitors sent us a photo of a very decent sized blue swimmer crab, caught off to the right hand side of Perlubie Beach.

Charlize Hawes pointing to a waterhole at Talia Caves. Taking a recent tourist drive, the park managers ended up at Talia Caves, which is about an 45 minute drive towards Port Lincoln. Talia Caves is a very beautiful tourist attraction with some magnificent rock formations and water holes, this is a great place to take the kids and do a little exploring.

Darren Hawes holding the tuna he caught
Our Manager Darren had a fantastic time fishing on a recent day off with one of our visitors, where he caught a nice sized southern bluefin tuna. Just one of the many fish species found here at Streaky Bay. Other species of fish you will find in Streaky Bay include; the famous King George Whiting, Mulloway, Flathead, Snook, Trevally, Mullet and Snapper and more!
